Affordability

In order to meet the self financing calculation for Buy-to-Let mortgages, the rental income is required to cover **the higher of** 145% of the mortgage interest at initial product pay rate **OR** 145% of the mortgage interest at a notional rate of 5.5%.

The self financing calculation must also cover the product fee if this is to be added to the loan.

Should the rental income be insufficient to meet the self funding calculation then the loan amount must be reduced to fit.

Personal income may not be utilised to meet any shortfall in rental income.

For Buy-to-Let applications the valuer will provide an expected market rental value figure.

If the total TSB debt, including the application you are processing, is £500,000 or more, and the customer holds any other mortgage commitments (either with TSB or other lenders) that are to remain outstanding, the Property Portfolio form should be completed.

New build properties

The maximum we will currently consider lending on initial occupancy / new build and flats for Buy-to-Let mortgages is 65%.

An initial occupancy / new build property is classed as any property being occupied and / or sold for the first time on the open market in its current state and includes converted and refurbished properties. These will fall into one of the following categories:

- Newly built property.
- Refurbished property i.e. refurbishment of an existing residential property. Typically a refurbished property will be considered as initial occupancy where the vendor is a builder / developer and the property has been vacated to allow for the refurbishment to be undertaken.
- Newly converted property i.e. conversion of an existing non residential property, e.g. an existing mill converted into flats.
- A property, either new or converted (as above), that has been tenanted and is now offered for sale by the builder / developer

Property must be subject to one of the following building control and monitoring requirements:

- Building Standards Indemnity Scheme from a warranty provider accepted by TSB.
- Professional consultant where small, solely residential development of no more than 15 units – consultant must meet qualifying criteria.
- An acceptable guarantee from a development corporation or local authority where they are the vendor.

A final inspection is required to confirm completion of the new property unless covered by an acceptable new build warranty provider. Retrospective new build warranties are not acceptable.

Property

The minimum valuation amount for all lending is £50,000. All flats must have a minimum habitable internal area of 30 sqm (excluding balconies or terraces).

Condition

Not available for properties which require renovation prior to letting. This does not include minor redecoration, but the property needs to be in sufficiently good condition that the valuer believes it is immediately habitable and can provide an immediate rental figure per month. For example, where a property requires complete replacement of the bathroom and / or kitchen, this would render it ineligible for a BTL application.

Energy rating

All properties must meet a minimum energy efficiency standard by law. We will not accept Energy Performance Certificates (EPC) of F or G unless there is a documented exemption, or changes to improve the rating are agreed in writing by the applicant. A template letter is available to download [here](#). This confirmation letter must be completed and returned to us for the application to go ahead. The Private Rented Sector (PRS) Exemption Register can be found here <https://prsregister.beis.gov.uk/>

We will not consider an application for a mortgage where there are more than 8 storeys within the block (ground floor + 7 floors).

Flats above business premises

These can be considered subject to valuer's comments.

Properties which are above, adjacent or near to commercial premises may be acceptable subject to the following:

- Flats over commercial premises must be in separate ownership to the commercial premises.
- The proximity of the commercial use must not affect the quiet enjoyment of the property. Consideration should be given to the location of the property.

The property must be located in a desirable area with good demand, readily saleable and readily marketable. For example, properties which are adjacent to, or in very close proximity to a public house, night club, petrol station, laundrette, pet shop or hot food takeaway where the method of cooking is likely to cause smell or fumes would not be deemed as suitable security. This is not an exhaustive list.

Properties located above convenience stores / small supermarkets are acceptable.

Any residential security must have a suitable access, which must not be through a business premises. Where the intended security is a flat situated adjoining or over the premises, the business property cannot be owned by the same person as this would have legal implications in the event of repossession.

- Central London is defined by the following postcodes;
 - NW
 - W
 - WC
 - EC
 - SE

- Ex-local authority flats are not considered unless the majority of the building is owner-occupied.
- The property must be of standard construction.

Number of bedrooms

The maximum number of bedrooms allowed for a Buy-to-Let property is five. A property must have at least a kitchen and one living room to be suitable for mortgage (excluding studio flats, see above).

- Not available for customers looking to let temporary during the mortgage term and then themselves or a family member reoccupy.

Not available for properties which require renovation prior to letting. This does not include minor redecoration, but the property needs to be in sufficiently good condition that the valuer believes it is immediately habitable and can provide an immediate rental figure per month.
